Dear Dr. Fetalvero:

A pleasant day to you!

We would like to request your school or organization to invite students and teachers to join the **Comprehensive Training-Workshop on the Conduct of Scientific Research** on January 18, 2020 at UST-Angelicum College. The objectives of the program are follows:

- Discuss the rudiments of the basic and scientific research
- Explain the technicalities in writing a research report
- Recognize the protocols in the international research publications

The training aims to strengthen the research skills of the participants and eventually lead to our advocacy which is to produce more citizens that are critical thinkers and problem solvers. For the past three years, we have already trained thousands of students and teachers and assist in producing hundreds of scientific researchers through our research mentoring programs and conferences. The events shall be conducted by our very own speakers with international research publication background and competence and champions of the research endeavours in the country and abroad.

We are hoping for your usual support in this effort to build a stronger nation through research and development. Thank you very much!

Sincerely,

Biji Oliveros
 Training Program Coordinator
