**Session 1**

**Recognizing and Developing Learners' Strengths**

Learners come from diverse backgrounds and understandably have varying aptitudes for learning. In this light, educators need to understand that not all approaches or strategies work well with everyone. The objective of this workshop is to equip classroom teachers with the knowledge and ability to recognize and harness the strengths of learners' aptitudes and abilities to maximize their learning potential with the end goal of developing independent learners.

Workshop 1

Day 2 Saturday

**Session 2**

**Identifying Common Learning Difficulties among Filipino Learners**

This session ideally presents teachers with practical and applicable interventions to effectively address common learning difficulties in their own classrooms. While it is ideal that interventions be undertaken by licensed therapist or SPED professionals, classroom teachers may well be equipped with basic knowledge on how to deal with difficulties that may easily be remedied with the proper approach and strategies and support of parents.

Workshop 3

Day 3 Sunday

## Session 4

### Developing Inclusive Lessons and Learning Materials

Recognizing the diversity of student aptitudes in one class, teachers need to design lessons and learning materials that address the need of all students. These need to be able to challenge the more advanced students as well as maximize the potentials of students who need more time to learn. The objective of this session is to present practical strategies directed toward the design and development of instruction and instructional materials that cater to all kinds of learners.
