Mada'am:

Greetings!

The behavioral problems of students increase every year. These affect their academic performance due to the influence of environmental factors that include their peers, family, mass media, internet and vices, thus they need assistance and guidance from their peer helpers, parents and other adults for them to have good attitudes towards their studies.

In this behalf, we would like to invite **DHELMIE CHRISTINE S. PEÑAS** as one of the speakers of Adolescent Health Youth Reproductive Program Symposium for the DLP students of Digos City National High School on Saturday, January 25, 2020.

Many thanks for your usual support in helping us attain and implement the goals of the Philippine Population Management Program (PPMP) through the Adolescent /Youth Development Program (AYDP).

More power and Godspeed!

ANGELITA P. CABRILLOS
City Population Officer
