**END PROGRAM REPORT**

Title: Government on Wheels: Bringing Government Services to the Community- Retooled Community Support Program (RCSP)- Serbisyo Caravan

Objective: To bring government services closer to the community.

Venues: Brgy. Balabag and Balabag Elementary School

Date: August 12, 2020 (Wednesday)

Issues/Concerns	Responses
-establishment of SHS in Balabag since many can't afford transportation cost; currently it's 70 pesos	-capital outlay and facilities are to be considered (City Vice Mayor Johari Baña); not easy to put up a SHS just like our experience with the DiCNHS
-accessibility (entrance) to SHS (dili ba ni State Universities para sa college? Mahal ang tuition sa private schools unya nagdasuk pud sa State University	- expanded scholarship program (City Mayor Cagas)
High cost of transportation to and from SHS and colleges; students from poor families stopped going to school	- A free transportation program (bus) exclusively for poor students only from the LGU as proposed by VM Bana. Mayor Cagas said that this has to undergo serious planning since other barangays will be also asking for same service.
- source of water (Balabag ES) CR – no water. Intermittent water supply	-Since water source is not dependable, the proposal was to put gutter around the roofs of the school buildings and set up water tanks (water collector) (Cagas) -join the Greening Program of the city
-no land title yet; Balabag ES holds tax declaration only: not yet donated by the owner; so every time the land property is sold, the school is also included in the transaction -recently, the school area was part of the land property bought by the NHA intended for government employees' housing project	- The buyer knows that the school will stay as is. -Since the new owner is the NHA, it will be a government to government transaction (Baña); will need only a deed of donation; no more fees -NHA has already asked for a site development plan and the LGU has started its preparation
-mini gymnasium for Balabag HS	-prioritize the need of the school (Cagas) -future plan (Cagas)

**Finding:**

The Armed Forces of the Philippines (AFP) Community Service in coordination with the City Department of Interior and Local Government (DILG) conducted a community dialogue and survey among the barangay officials and residents Barangay Balabag in November 2019. One of the issues and concerns of the participants of the said activity was the **low level of education**.

**Recommendations:**

1. To ask a copy of the transcript of the dialogue from the City DILG for in-depth analysis of the finding. To contact the AFP to get the first hand data and be able to identify where the concern of low level of education was coming from;
2. To conduct a round table conference or focus group discussion among the teachers and school head of Digos City NHS- Balabag HS Annex; and
3. To communicate the results of the round table conference and validation to the SDO Management for policy determination.

**Digos City NHS- Balabag HS Annex**

Land Area	12,841.73 square meters
Type of Terrain	A point or small area of high ground
Elevation	272 meters above sea level
Coordinates	longitude 125.276° latitude 6.8124°
