**RE: INVITATION TO ATTEND TO AN ONLINE WORKSHOP FOR BREACH
RESPONSE AND CYBER-SECURITY**

To: ASDS
SGOD CHIEF
CID CHIEF
NON-TEACHING PERSONNEL
ALL OTHERS CONCERNED

1. Yisrael Solutions and Training Center Inc. sent a letter inviting the division office for a three-day seminar workshop on breach response and cybersecurity for a fee of PHP1800/day/pax or a total of Php5400.00;
2. The enclosed letter specifies the schedule dates, topics, time period and objectives. They emphasized that cybersecurity awareness training is essential to reduce the risk of sophisticated phishing, social engineering methods that may trick employees to disclosing confidential information or breach incidents. Moreover, security awareness program seeks to educate employees of their responsibility to help protect the confidentiality, integrity and availability of their organization and its assets;
3. Should you be interested, you are encouraged to join this seminar workshop on your own expense. For further information or clarifications, please refer to the contact information provided for in the enclosed letter;
4. For immediate dissemination.

SUBJECT: "INVITATION TO ATTEND TO AN ONLINE WORKSHOP FOR BREACH RESPONSE AND CYBER SECURITY"

Dear Sir/Madam,
Greetings!

Yisrael Solutions and Training Center Inc is committed to the welfare of the country and the people. In line with the recent pandemic or the amid spread of COVID 19, the conduct of training classes or seminars/workshops all over the country had been temporarily postponed indefinitely until further notice to ensure the security, health, and safety of our countrymen. However, we have decided to continue our operations with virtual classrooms and remote work through the use of digital communication technology.

As an alternative option for face-to-face, we would like to offer you our online workshop, the online equivalent of being in a training room and learning together as a group through collaborative activities which will be conducted over the internet.

Cybersecurity awareness training is essential to reduce the risk that employees are exposed and tricked by sophisticated phishing or social engineering methods into serving unknowingly as entry points or worst, breach incidents that can affect organization information and data systems. This training could also help the company/agency to respond to a security breach and comply with the necessary notification requirements under the Philippine Data Privacy Act.

The primary objective of the security awareness program is to educate users on their responsibility to help protect the confidentiality, availability, and integrity of their organization's information and information assets. The participants will be able to know the state-of-the-art information about Cyber Security, its importance, good practices, and benefits to the organization. Participants can have a view on different phases of security threats: System Hacking, Malware Threat, Sniffing, Social Engineering, DDOS Attack, and How can they respond to them.

During the training, the speakers will also confer on Breach simulation briefing and simulation of attack and a Breach Notification Requirements of RA 10173, a deep discussion on breach notification requirements under the DPA and Circular 16-03, and additional information on RA 10175 "Cybercrime Act"

Participants will take their time to report the results of their investigation on the given breach simulation, both technical and compliance report that is why we encourage you to form or create a Breach Response team (minimum

YISRAEL SOLUTIONS AND TRAINING CENTER, INC.

number or three (3) or more participants) to be headed by the Data Protection Officer (DPO) to attend and participate on the “Breach Response Team Report.

While we are staying at home to help to control the spread of COVID 19, we are inviting you to attend our online workshop classes for Breach Response and Cyber Security Threat and Attacks. Our cybersecurity expert will give a discussion and demo about Cyber Threats and Attacks.

Below are the online workshop class programs/modules:

MODULE	TOPIC	TIME PERIOD	OBJECTIVES
1	DAY 1: INTRODUCTION TO CYBER SECURITY	9:00AM	Know the state-of-the art information about Cyber Security, it’s importance, good practices and benefits to the organization
2	KNOWING THE ATTACK VECTORS (PART I)	TO 4:30PM	Participants can have a view on different phases of security threats: System Hacking, Malware Threat, Sniffing, Social Engineering, DDOS Attack and How can they respond to them.
