MEMORANDUM

To : Schools Division Superintendents  
 Chief, Education Support Services Division

Subject: TRAINING FOR FOUNDATIONAL COURSE ON ADOLESCENT  
 HEALTH

Date : January 24, 2022

Attached is the OUA Memorandum No. 00-0122-0065 dated January 18, 2022, entitled "Conduct of Trainings for Foundational Course on Adolescent Health".

To continuously support primary care service providers for a friendly and responsive adolescent health care, the Office of the Undersecretary for Administration (OUA), through the Bureau of Learner Support Services – School Health Division (BLSS-SHD), will conduct a series of Online Training for the Foundational Course on Adolescent Health, in collaboration with the Department of Health (DOH) and the World Health Organization (WHO), supported by the Society of Adolescent Medicine of the Philippines (SAMPT), Plan International – Philippines, and RTI Philippines.

The training for the Region and Division ARH Focal Persons will be conducted via Zoom from 8:30am to 12:00noon on March 29 to April 1, 2022, for Regions 10, 11, 12, CARAGA, and BARMM (Batch 4).

The training that will be conducted by the DepEd Central Office shall be cascaded by the trained Regional and Division ARH Focal Persons to school personnel, including all guidance counselors in the DepEd offices, in their jurisdiction within the year 2022. Training materials shall be shared to ARH Focal Persons who will pass the evaluation at the end of the training program.

Regional and Division ARH Focal Persons are all expected to attend the said activity and shall register through <https://bit.ly/FCAHReg> to receive the meeting link before the scheduled dates. Additional information shall also be sent to registered participants via email.

Continuing Professional Development (CPD) units is being processed for the course.

Immediate and wide dissemination of this Memorandum is desired.

**Training on the Adolescent Health Care for  
Primary Health Service Providers - Foundational Course**

**Training Design**

**I. Rationale**

To continuously support primary care service providers in their efforts of creating acceptable, friendly and responsive health systems for adolescent health care, the Family Health Division of Department of Health (DOH), in collaboration with the World Health Organization (WHO) Philippine Country Office, developed a more comprehensive skills development, based on the competency of the participants for adolescent health care. The Foundational Course for Adolescent Health Care capacitates the health service providers in better understanding their adolescent clients or parents, and how their developmental changes influence their behaviors.

Primarily for health providers, its earlier versions have proven relevance and applicability to school teachers and counsellors, nurses, and social workers. With a common client base, this Foundational Course serves as a venue for these providers of various professions and backgrounds, to appreciate the work of each other, and potentially serve as a jumping board in the development of a service delivery network for the adolescent.

On 9 November 2021, The Department of Education, through the Bureau of Learner Support Services-School Health Division (BLSS-SHD), in collaboration with the DOH, requested technical support from WHO Philippines to conduct a series of capacity building activities for its Adolescent Reproductive Health (ARH) Program Focal Persons. The training on the Foundational Course for Adolescent Health is slated from January to March 2022. This is in support of the implementation of the Comprehensive Sexuality Education (CSE) and ARH program in schools to address the risky behaviors of learners.

**II. Objective of the Course**

To capacitate DepEd teaching and non-teaching personnel in understanding the development of an adolescent, hence, to be adept in providing the right services to adolescents.

**III. Learning Outcomes**

At the end of the activity the health care providers are expected to achieve the following:

Learning Outcomes	Assessment of Learning Outcomes
<ol style="list-style-type: none"> <li>1. Describe the stages of adolescent development and how these are influenced by various biological, social, emotional, and environmental factors.</li> <li>2. Describe the cognitive, affective, and behavioral development of adolescents and how these are affected by the neurocognitive maturation of the brain.</li> <li>3. Explain the leading causes of mortality and morbidity among adolescents, the prevalence of key health-related behaviors and conditions among adolescents, and protective and risks factors using national/regional/local age and sex-disaggregated data.</li> <li>4. Explain how the structural social determinants of health and more proximal protective and risk factors affect the adolescent health.</li> </ol>	<ol style="list-style-type: none"> <li>1. Pre-and Post-Test</li> <li>2. Self- assessment</li> <li>3. Facilitated discussion</li> <li>4. Demonstration</li> <li>5. Case study/analysis</li> </ol>

5. Discuss the numerous factors that can improve the climate of the consultation: the importance of confidentiality, privacy, confidence, neutral non-judgmental attitudes, respect and empathy.
6. Provide a trustful atmosphere in the consultation by informing adolescents about their rights to privacy and confidentiality.
7. Demonstrate a friendly, respectful manner that is empathic, non-judgmental and without discrimination to an adolescent client.
8. Assess the influence of gender norms on an adolescent client's health behaviors and outcomes.
9. Perform a psychosocial assessment through the use of Rapid HEEEEADSSSS (Home, Education, Employment, Eating, Activities, Drug Use, Sexuality, Suicide, Safety, and Spirituality) to detect risk and protective factors in adolescents' social, educational, and home environment.
10. Explain the main laws and policies that affect the legal educational and health status of adolescents in the country.
11. Describe the main characteristics of quality health services for adolescents.
12. List locally applicable standards exist and the WHO global standards.
13. Plan the roll-out using national/ regional/ local age and sex disaggregated data

#### IV. Contents

The training course duration is four (4) days. The duration includes meeting of facilitators, registration, pre- and post-training activities; and interactive activities for participants on adolescent clients using HEEEEADSSSS.

- Stages of Development
- Inner working of the adolescent
- Gender and Health
- Rapid HEEEEADSSSS
- Being Client Friendly to the Adolescent
- Key Actions for Adolescents
- Adolescent Friendly Facility Checklist
- Laws and Policies related to adolescent health

## V. Methodology

- Pre-test and Post-test
- Facilitated discussion
- Demonstration
- Self-assessment
- Case study/analysis

## VI. Evaluation

- Attendance - 100%
- Participation in discussions
- Activity Outputs - 100 % submission
- Pre-test - completion
- Post Test - 80% passing rate
- Training Evaluation - completion
- Action Plan - submission
