30 AUG 2022

Dear SIR:

Greetings!

Teachers are the best instrument to promote quality education. Training the teachers is one of the best efforts of the school to improve the quality of student performance. Currently, while schools are shifting their teaching and learning modalities into a hybrid set-up, it is good to enhance our online classes and strategize to create meaningful lectures with heightened student engagement.

Hope Academy Rizal, through its STEM School Program, will conduct its third project entitled WEEKEND STEM TEACHERS' TRAINING for all Science and Math teachers (K - Grade 12) with the theme: Building and Enhancing Online Teaching and Learning Strategies of STEM Teachers through Active Student Engagement on September 17, 18, 24, & 25, 2022.

This project aims to:

1. Expose teachers to different best practices in STEM fields of specialization.
2. Help teachers to create meaningful and active student engagement during Online Science & Math classes.
3. Enhance STEM teachers' skills in learning different strategies to improve student engagement.
4. Assist teachers in using different computer applications to assess students' weaknesses and strengths in Math and Science courses.

In connection with this, we are glad to present the details of this four-day webinar on STEM Teachers' Training. We are looking forward to your approval so that teachers from public and private schools can join us in this extra-ordinary international webinar in partnership with STEM4Real organization based in US. The registration fee for this webinar is P1000 covering the e-certificate, online materials and future discounts.

Attached here are the complete details of the Weekend STEM Teachers' Training

Thank you, and God bless us all.

Sincerely yours,

**DAISY MAE R. BONGTIWON**
