Subject: **REITERATION OF THE DIVISION MEMORANDUM SGOD-2023-268  
RE THE GUIDELINES ON THE NATIONWIDE IMPLEMENTATION OF  
THE ENHANCED 4S STRATEGY AGAINST DENGUE, CHIKUNGUNYA,  
AND ZIKA**

Date: November 28, 2023

1. Due to the increasing cases of Dengue Fever in schools in the city, this Office strongly reiterates the Division Memorandum SGOD-2023-268 re **THE GUIDELINES ON THE NATIONWIDE IMPLEMENTATION OF THE ENHANCED 4S STRATEGY AGAINST DENGUE, CHIKUNGUNYA, AND ZIKA** dated June 26 2023.
2. The field is mandated to do the following:
  - **Implementation of Enhanced 4s** as a prevention and control strategy against Aedes-borne diseases specifically Dengue, Chikungunya, and Zika in congruent to the global vector response 2017 of the World Health Organization. The 4S in the “Enhanced 4S” strategy stands for:
    - a. Search and Destroy breeding sites**
    - b. Seek early consultation**
    - c. Self-protection**
    - d. Say ‘YES’ to fogging only in hotspot areas where increase in cases is registered for two consecutive weeks.**
  - **Schools are obliged to do the “4 o’ clock habit/ Oplan Kulob” every afternoon at 4 pm** to maintain the cleanliness of the surroundings and to conduct measures to prevent water stagnation at all times. This Office also directs the schools that **Oplan Kulob** should be practiced and be applied in the students’ respective households.
3. District Nurses shall monitor and check the school’s conduct of the “4 o’ clock habit/ Oplan Kulob”.

Subject : **REITERATION ON THE GUIDELINES ON THE NATIONWIDE IMPLEMENTATION OF THE ENHANCED 4S STRATEGY AGAINST DENGUE, CHIKUNGUNYA AND ZIKA**

Date : June 26, 2023

In reference to the Unnumbered Regional Memorandum dated May 15, 2019 with the above-named subject, the field is hereby informed of the following:

1. Enhanced 4S should be implemented as a prevention and control strategy against Aedes-borne diseases specifically Dengue, Chikungunya and Zika in congruent to the global vector response 2017 of the World Health Organization.
2. The 4S in the "Enhanced 4S" strategy stands for search and destroy breeding sites, seek early consultation, self-protection, and say 'yes' to fogging only in hotspot areas where increase in cases is registered for two consecutive weeks.
3. Encourage schools to sustain the "4 o'clock habit" in order to maintain the cleanliness of the surroundings and to conduct measures to prevent water stagnation at all times.

For more details, please read enclosures.

For information and strict compliance.

**DIVISION MEMORANDUM**  
No. 403, s. 2019

June 7, 2019

**GUIDELINES ON THE NATIONWIDE IMPLEMENTATION OF THE ENHANCED 4S STRATEGY AGAINST DENGUE, CHIKUNGUNYA AND ZIKA**

To: **Division Health Personnel**  
**Public Schools District Supervisors**  
All Public Elementary/Junior High/Senior High Schools Administrators

1. In reference to the Unnumbered Regional Memorandum dated May 15, 2019 with the above-named subject, the field is hereby informed of the following:
  - a. 2019 is anticipated as possible dengue outbreak year due to switching of circulating virus stereotypes
  - b. The report of the Department of Health (DOH) reveals that there is an increasing number of dengue cases in the region
  - c. From January to March 2019, there is an increase by 174% higher, compared to the same period in 2018 as reported in the Philippine Integrated Disease Surveillance and Response in ROX1
2. Relative to the aforementioned, all public schools are strongly encouraged to support the implementation of the enhanced 4S strategy against dengue and other Aedes borne viral diseases where the 4S stands for **1. Search and destroy 2. Secure self-protection 3. Seek early consultation 4. Support indoor and outdoor spraying**. This 4S strategy constitutes the framework of action towards sustained reduction of mosquito population, decreases the incidence of dengue and prevents deaths.
3. Further, all schools are similarly encouraged to promote the activity by disseminating the 4S strategy during flag ceremonies and in other convergences like meetings and conferences with the whole school community.
4. For more details, please read enclosures.
5. Widest dissemination to all concerned is required

MEMORANDUM

To : Schools Division Superintendents

Subject: GUIDELINES FOR THE NATIONWIDE IMPLEMENTATION OF THE ENHANCED 4S-STRATEGY AGAINST DENGUE, CHIKUNGUNYA AND ZIKA

Date: May 15, 2019

Herewith is letter from Director Annabelle P. Yumang MD, MCH, CFSO IV, Regional Director, Department of Health Region XI informing that Dengue is considered as the most important mosquito-borne viral disease in the world. The virus has four (4) circulating serotypes transmitted by *Aedes aegypti* and *Aedes albopictus* mosquitoes. Symptoms range from mild fever, persistent vomiting, lethargy and potentially fatal severe dengue characterized by severe organ impairment. Dengue outbreaks exert huge burden on population, health systems and economies.

From January to March 29, 2019, there are one thousand nine hundred sixty-one (1,961) dengue cases and three (3) deaths reported to Phil Integrated Disease Surveillance and Response in Region XI. This is 174% higher compared to the same time period in 2018. Analysis shows that all provinces exceeded the alert threshold and school children are mostly affected by the disease. Moreover, the year 2019 is anticipated as possible dengue outbreak year due to switching of circulating dengue virus serotypes.

The Department of Health Davao Center for Health Development has been closely monitoring and actively doing various undertaking to deal with increasing cases of Dengue in the region such as advocacy campaigns in all available platforms; availability of logistics and supplies in all government health facilities; strengthen service Delivery Networks (SDN), and communications.

In this regard, this Office together with the Department of Health would like to request your full support in the implementation of the enhanced 4 S (1. Search and Destroy, 2. Secure Self Protection, 3. Seek Early Consultation and 4. Support Indoor and Outdoor Spraying) against Dengue and other Aedes Borne Viral Disease in all public elementary and secondary schools. The enhanced 4S constitute the framework of action towards sustained reduction of mosquito population, decrease incidence of Dengue and prevent deaths.

Relative to this, we would like to ask your support in promoting the campaign by hanging streamers/tarpaulins in your office façade in support of the activity and announce during flag ceremonies the 4S strategy. You may download the prototype at the official Facebook page Department of Health Davao Region or this link provided below.
